Professional Summary

Full-stack software engineer and Software Development undergraduate at Zewail City, experienced in building and deploying web, mobile, and desktop applications. Hands-on experience with ERP development and AI-powered integrations using TypeScript, React/Next.js, NestJS, and PostgreSQL.

Technical Skills

Languages: TypeScript, JavaScript, C++, Python, SQL

Frontend & Cross-Platform: React, Next.js, React Native, Tauri, HTML/CSS, Tailwind CSS

Backend & Data: Node.js, NestJS, PostgreSQL, REST APIs, authentication

Tools & AI Integration: Git, GitHub, Docker, Linux, Postman, LLM APIs, RAG document ingestion

Professional Experience

Dewan Soft **Oct 2026 – Present**

Software Engineer (Contract)

- Developing a confidential AI-powered technical-support integration, focusing on documentation ingestion for retrieval-augmented generation (RAG) and LLM API integration.
- Implementing WhatsApp messaging through incoming webhooks and outgoing API calls, with customer identification using WhatsApp JIDs.

Dewan Soft **May 2026 – Sep 2026**

Software Engineering Intern

- Diagnosed and resolved issues in existing ERP modules based on client support tickets.
- Developed club-management ERP modules from requirements gathered by the technical consultation team.

Selected Projects

Mama Fattoum | fattoumfoods.com **Apr 2026 – Present**

- Built a production restaurant platform connecting ordering, administration, kiosk, cashier, notifier, and central-kitchen workflows through a NestJS and PostgreSQL backend.
- Developed Next.js/React web apps, React Native mobile apps, and a Tauri ordering kiosk; integrated Bluetooth barcode scanning with the iPad cashier app.
- Built configurable subscriptions with administrator-defined packages and customer customization.

Nooran Land | nooranland.com **Jun 2026**

- Built a live LMS for Arabic and Islamic studies with a Next.js website, React admin dashboard, NestJS/PostgreSQL backend, and PayPal payments.

Al Malik Academy | almalikacademyedu.com **Jun 2026**

- Built a separate, live LMS with a Next.js website, React admin dashboard, NestJS/PostgreSQL backend, and PayPal payments.

Education

University of Science and Technology in Zewail City **Aug 2024 – Expected Sep 2028**

B.Sc. in Computer Science, Software Development Major

Leadership & Activities

AWS Student Builder Group Leader **Oct 2025 – Oct 2026**

- Led student cloud-computing activities and organized introductory AWS and AWS Lambda workshops.

Additional activities: NASA Space Apps Challenge Cairo (2025); Egyptian Collegiate Programming Contest (ECPC).

Languages: Arabic (Native) | English (Professional Proficiency)
